Foule Théâtre

TECHNICAL INFORMATION SHEET

Ideal stage dimensions: Opening: 8 meters
Depth: 6 meters
Height: 4 meters

The stage must be equipped with black drop curtains to create a black box + black back-drop. The floor need to be black

The show requires a fully equipped space (see the attached list of lighting and sound requirements at the end of this document)

Electrical power: 40A in 3 x 220V or 25A in 3x 380V

Blackout is indispensable

The show is preferably presented on a one-level playing area.

To reduce the amount of equipment needing to be transported, we ask the festival
☛ to provide a little desk lamp, a little basin, a high table, a stool and a high table
☛ to build the easel (board)

You will find all the information on the plans and the pictures in attached documents

Duration: 55 minutes

Set-up: 5 hours before the performance

Bring-down: 1 hour

1 technician is required to help with load-in and load-out of scenery and equipment.
1 technician with knowledge of the sound and lighting infrastructure on the site is required throughout the set-up

If technical equipment is hired to equip the site, the mounting and connection of this equipment will be carried out by the hire company, not by Foule Théâtre. Foule Théâtre can not be held responsible for any dysfunction in the hired equipment.
