LIGHTNING

- **TOTAL BLACKOUT NEEDED**
- 21 2Kw circuits and 2 3Kw circuits + audience lightning controled by DMX

Needed Spots (with barndoors) :

12x PAR 64 CP62	16x PC spots 1kW	1x Profile 1kW
L156 x3 L201 x1 L206 x1 L712 x2	L104 x1 L132 x2 L136 x3 L152 x3 L156 x1 L201 x2	/

- 6 Spotlight Feet + 1 T BAR + 4 plates + one block to elevate one spotlight (PAR 40 cm/ ch15).
- Software lighting control: DLight - Company's laptop.
- If you don't have barndoors, please have aluminium tape.

SOUND SYSTEM

- We have our own sound system (embedded in the scenography, 1 vinyl turntable + 1 mixer + 2 speakers). However, we need 2 XLRs from the control room to the stage left.
- + 1 direct line (230v) to the stage, which arrives at two different places, to connect our sound equipment.

OTHERS

- If possible, provide the public levelled with the stage. We favor a close public/ stage relationship.
- Please provide 2 home technicians for the set up.
- **A lightning pre-set by your team up is asked. Please contact us for any other agreement**
- Parking access for our yellow van (6m3).
- The stage and around need to be cleaned before our arrival.
- **The actor arrives always 2h before each show**
